EXPERIENCE

Cloud Payments, Austin — *Junior Software Developer*
2024 - PRESENT

- Identify Neural / Learning open source AI applications as well as LLM open source / hybrid AI engines to install and test on AWS.
- Learn/Play/Modify the applications/models to be more accurate.

ZT Systems, Austin — *Test Technician*
2024 - PRESENT

- Quality control of racks of servers (supercomputers)
- Run tests, troubleshoot failures, and replace hardware if necessary

Jann Software — *Computer Programmer*
2018 - PRESENT

- Built my own responsive website with a custom vanilla Javascript framework.
- Built a Fantasy Football app with a database for my fantasy football league, weekly power rankings with a parallax effect, and a deep learning algorithm for players
- Built a Facebook Clone that let users customize their homepage and comment on other users' walls.
- Developed and deployed 2D and 3D games, including a 3D Interactive Resume where you control a spaceship and fly to various parts of my resume.
- Maintained a mobile-first blog for multiple years with advanced layouts with floating videos and a unique text-message themed text.
- Built a music app that lets you choose between 2 Alien DJs, with hardcoded javascript objects dynamically displaying photos of the current artist.
- Designed a custom homepage with dynamic images that change automatically, and wrote algorithms that provide each visitor with a unique greeting based on the device they're using and the current time and day.
- Deployed Artificially Intelligent Apps that respond to user input with ChatGPT 3.5 Turbo using Netlify Serverless Functions and Open A.I.s API

Best Buy, Woodland Hills — *Geek Squad Agent*
OCT 2022 - MARCH 2024

- Provided excellent sales, customer service, and solutions
